

GSM : SAVE

SINGLE LINE ANALOGUE FIXED CELLULAR TERMINAL WITH LCD DISPLAY

- **Dual Band 900/1800**
- **LCD Display showing Network, Signal Strength and Call Status**
- **FXO (trunk) or FSX (extension) connection**
- **Simple Installation – easy configuration via DTMF**
- **Hi Gain Mag Mount antenna with 2m cable for optimal signal strength**
- **Quick call set up and release**
- **Echo Cancellation**

The **GSM SAVE** single line analogue FCT (Fixed Cellular Terminal) is the smallest FCT available in the marketplace. This combined with its excellent functionality and superb call quality makes it the ideal choice for any customer wishing to reduce the cost of their fixed to mobile telephone calls.

The FCT connects to your telephone system via the analogue trunk card or via the analogue extension card and routes calls via the mobile networks – in many cases with savings of over 50% on BT call charges and even alternative telecoms providers.

For more information call Westlake Communications on 0800 298 8011 or visit our website at www.gsmsave.co.uk
